

This is a detailed topographic map of a landscape, likely a planning or engineering drawing. The map features several distinct colored zones and labels:

- Green Zones:** Large areas of dark green and light green, possibly representing different types of vegetation or land use. Labels include E1b, E2c, E2a, E3a, and E3b.
- Blue Zones:** A large blue area in the upper right, and a smaller blue area in the lower right. Labels include G4, G5, and G6.
- Orange Zone:** A small orange area in the lower right, labeled C3a.
- Grey Zones:** Several grey areas, including a large one in the center and smaller ones near the bottom right. Labels include G2, G3, and G4.
- Light Green/White Zones:** Small, irregularly shaped areas, possibly representing water bodies or specific land parcels. Labels include H1, H2, and H3.
- Topographic Features:** Contour lines are visible throughout the map, indicating elevation changes. A road or path is shown running through the center, and a river or stream is visible in the lower right.
- Other Labels:** Various alphanumeric codes are scattered across the map, including E1a, E2b, E3c, G1, G2, G3, G4, G5, G6, H1, H2, H3, C3a, and C3b.

Figure 1 is a map of the study area in the north-east of Iran, divided into a 5x5 grid of squares. Each square is labeled with a taxon number (Tax.1 to Tax.15). The map shows the geographical distribution of 15 taxa across the region. Taxon 10 is highlighted in a red square in the center of the grid.
